CURRICULUM VITAE

After the Art School Degree obtained at the Liceo Artistico Statale II in Milan, I trained under my father in his laboratory, who was a painter and restorer, until I reached the autonomy of managing the restoration of canvas and board paintings, from him I have learned the art of contemplation.

I worked later as graphic designer, creative, artistic director, designer. Art, color, design and image as daily nourishment.

Curiosity and imagination, many encounters in the artistic environment, the energies dedicates to cultivating the gaze and the vision. I like using my hands to draw, paint, model and love to photograph.

I'm happy when I find objects that excite me and can tell me a story.

In January 2016 I founded the ELISABETTA CAROZZI brand and I presented my GIOIEMILANESI, specifically the ICONICA project, collection of glass necklaces.

The Iconica artistic project is the result of the latest years of work, research and experimentation, but it is based upon the thirty-year experience I had in my work, and expresses at the same time the origins of my working growth in the artistic, graphic and design field.

Analysis of the production cycle

I create, design, draw, and make the prototypes.

The production of the different components are made by selected skilled Italian artisans, under my responsibility.
